It may be very HOT that day with lots of sunshine. **Hydrate extra well** the night before and **get plenty of sleep and SUN BLOCK**. There will be a lot of waiting and standing in the staging area before and after the comps so be prepared.

Be very flexible when it comes to scheduling times and locations. If something changes from one minute to the next do not question it, **just do it**. This will make life easier during a hectic performance day.

Please handle all conflicts and questions before Saturday morning when it will be too late!
